EV MOBILITY

SUSTAINABLE
GROWTH

ENTREPRENEURSHIP

INTRODUCTION

The Chamber of Business and Entrepreneur (India) Council (CBEIC) serves as the conceptual, strategic, and implementation partner behind the **Yuva Saarthi** Initiative.

CBEIC's mission of promoting entrepreneurship, skill development, employment generation, and sustainable economic growth is closely aligned with the objectives of Yuva Saarthi. Through this initiative, CBEIC aims to create a nationwide ecosystem that empowers youth, strengthens rural economies, and accelerates India's transition towards clean and sustainable mobility.

www.yuvasaarthi.in

How CBEIC Aligns with Yuva Saarthi

1. Entrepreneurship Development

CBEIC promotes youth-led entrepreneurship through Yuva Saarthi Centers, enabling individuals to establish and operate EV charging stations, EV fleet services, digital service centers, and community enterprises.

2. Employment Generation

The initiative supports direct and indirect employment opportunities for rural and semi-urban youth through operations, logistics, mobility services, technical support, and digital service delivery.

3. Sustainable Development

Yuva Saarthi contributes to India's sustainability goals by promoting electric mobility, solar energy integration, carbon reduction, and environmentally responsible infrastructure.

4. Rural Economic Empowerment

Through Panchayat-level implementation, CBEIC seeks to strengthen local economies, create income-generating opportunities, and improve access to essential services in villages and underserved communities.

How CBEIC Aligns with Yuva Saarthi

5. Skill Development & Capacity Building

CBEIC facilitates training, certification, operational guidance, and entrepreneurship development programs to ensure successful implementation and long-term sustainability of Yuva Saarthi Centers.

6. Government & Institutional Collaboration

CBEIC works to align Yuva Saarthi with Central and State Government programs related to MSMEs, Rural Development, Panchayati Raj, Renewable Energy, Skill Development, and Electric Mobility.

7. Inclusive Growth & National Impact

By targeting 25,000+ Gram Panchayats and expanding nationwide, Yuva Saarthi supports the vision of inclusive growth, digital empowerment, financial inclusion, and self-reliant communities.

INTEGRITY

We act with honesty, transparency and accountability in everything we do.

INCLUSION

We believe in equal opportunities and empowering every individual to thrive

SUSTAIN

We are committed to building environment-friendly solutions for a better tomorrow.

INNOVATION

We embrace new ideas and technology to create impactful and scalable solutions.

OUR CORE VALUES

Vision

"To empower youth, strengthen rural entrepreneurship, promote clean mobility, and build a sustainable, digitally connected Bharat through innovation, collaboration, and community participation."

Mission

"To establish a scalable network of Yuva Saarthi Centers that integrate EV mobility, solar energy, digital services, entrepreneurship, and livelihood opportunities at the grassroots level."

Our Models

Yuva Saarthi "To establish a scalable network of Yuva Saarthi Centers that integrate EV mobility, solar energy, digital services, entrepreneurship, and livelihood opportunities at the grassroots level."

OUR MINI MODELS

Yuva Saarthi Rural Services Center with Samvad Café Model

The Yuva Saarthi Rural Services Center is a unique Gram Panchayat-level development model that combines electric mobility, solar energy, digital services, financial inclusion, skill development, and community engagement under a single container-based infrastructure. Designed as a compact yet powerful rural enterprise hub, the center serves as a one-stop solution for villagers, youth, entrepreneurs, farmers, and local businesses. The model is built around the vision of creating sustainable livelihoods while accelerating rural India's transition toward clean energy and digital empowerment.

The center is developed using a modern prefabricated container structure equipped with EV charging facilities, digital service counters, banking and financial service kiosks, internet-enabled workstations, digital display systems, and a solar rooftop power system. The solar-powered design helps reduce operational costs while promoting renewable energy adoption at the grassroots level. The container is aesthetically designed to serve as a visible symbol of innovation, sustainability, and entrepreneurship within the village ecosystem.

A key component of the Yuva Saarthi Center is its EV Mobility Hub, which provides charging facilities for electric two-wheelers, electric three-wheelers, and e-rickshaws. The center promotes electric mobility adoption in rural areas while supporting local transport operators with affordable charging infrastructure. By creating village-level EV charging networks, the initiative contributes to reducing fuel dependency, lowering transportation costs, and supporting India's clean mobility mission.

The center also functions as a Digital Services Hub, enabling citizens to access various government and private digital services. Villagers can avail assistance for online applications, scholarship registrations, government schemes, employment services, travel bookings, utility bill payments, documentation support, and various citizen-centric digital services. This reduces the need for rural residents to travel long distances for basic administrative and online services.

The Yuva Saarthi Rural Services Center is designed as a financially sustainable model with multiple revenue streams generated through EV charging, digital services, banking commissions, logistics support, advertising, training programs, and café operations. This diversified revenue structure ensures long-term viability while creating direct and indirect employment opportunities within the village.

Yuva Saarthi Rural Services Center with Samvad Café – Key Highlights

EV Mobility Hub

- Solar-Powered Infrastructure
- Digital Services Center
- Banking & Financial Services
- Youth Empowerment & Skill Development
- Logistics & E-Commerce Hub
- Digital Cloud Advertisement
- Samvad Café
- Social & Environmental Impact
- Employment Generation

The Yuva Saarthi initiative is designed as a structured three-tier model to ensure effective implementation, monitoring, service delivery, and sustainable growth from the Gram Panchayat level to the District level. Each tier has distinct responsibilities and infrastructure designed to support the overall mission of creating employment, promoting EV mobility, enabling digital services, and strengthening rural entrepreneurship

The Yuva Saarthi Basic Non-Solar Model is an affordable Gram Panchayat-level rural service center designed for entrepreneurs, youth, self-help groups, and village-level service providers. This model operates on a standard electricity connection and combines EV charging, digital services, banking facilitation, government scheme assistance, logistics support, and community services under one roof. The center is established using a compact kiosk or container structure equipped with basic furniture, computer systems, internet connectivity, branding, and EV charging facilities. It serves as a sustainable rural business hub while creating local employment and improving access to essential services.

The Yuva Saarthi Basic Non-Solar Model is an affordable Gram Panchayat-level rural service center designed for entrepreneurs, youth, self-help groups, and village-level service providers. This model operates on a standard electricity connection and combines EV charging, digital services, banking facilitation, government scheme assistance, logistics support, and community services under one roof.

The center is established using a compact kiosk or container structure equipped with basic furniture, computer systems, internet connectivity, branding, and EV charging facilities. It serves as a sustainable rural business hub while creating local employment and improving access to essential services.

Key Features:

- * **10 × 12 Prefabricated Container**
- * **3.5 kW Solar Power System with Battery Storage**
- * **Common Service Point (CSP) for Citizen Services**
- * **EV Charging Station: 5 × 3.3 kW Chargers & 1 × 7.5 kW Fast Charger**
- * **ATM Facility**
- * **Tea & Refreshment Canteen**

Objective:

To promote sustainable rural development, digital inclusion, clean mobility, renewable energy, and local entrepreneurship through a self-sustaining, multi-service rural infrastructure model.

Tier 1: Yuva Saarthi Panchayat Service Center (YPSC)

Gram Panchayat Level

The Yuva Saarthi Panchayat Service Center (YPSC) serves as the grassroots implementation unit

of the Yuva Saarthi ecosystem. Established at the Gram Panchayat level, this center functions as a multi-service rural enterprise hub providing EV charging services, digital citizen services, banking facilitation, logistics support, government scheme assistance, and community engagement activities.

The center is operated by local entrepreneurs and youth, creating direct employment opportunities while providing essential services to villagers. It acts as the first point of contact for citizens and serves approximately 3–5 villages or a population ranging from 3,000 to 10,000 people.

Key Functions

- EV Charging Services
- Digital & Government Services
- Banking & Financial Inclusion
- Travel & Ticket Booking
- Logistics & E-Commerce Support
- Samvad Café Operations
- Skill Development & Employment Support
- Rural Entrepreneurship Promotion
- ATM Facility

Coverage

- 1 Gram Panchayat
- 3–5 Villages
- 3,000–10,000 Population

Tier 2: Yuva Saarthi Block Facilitation Center (YBFC)

Block Level

The Yuva Saarthi Block Facilitation Center (YBFC) acts as the operational support and

coordination hub for all Panchayat Service Centers within a development block. It provides technical assistance, monitoring, training, reporting, quality control, and implementation support to Panchayat-level centers.

The Block Facilitation Center serves as a bridge between District Administration and Panchayat Centers, ensuring smooth execution of programs, franchise support, and field-level supervision.

Key Functions

- *Monitoring of Panchayat Centers*
- *Franchise Support & Coordination*
- *Training & Capacity Building*
- *Data Collection & MIS Reporting*
- *Government Scheme Facilitation*
- *Marketing & Awareness Campaigns*
- *Technical & Operational Support*
- *Beneficiary Verification & Mobilization*

Coverage

- *50–100 Panchayat Centers*
- *One Development Block*
- *Regional Operations Management*

Tier 3: Yuva Saarthi District Resource & Command Center (YDRCC)

District Level

The Yuva Saarthi Block Facilitation Center (YBFC) acts as the operational support and

The Yuva Saarthi District Resource & Command Center (YDRCC) functions as the district headquarters for planning, administration, monitoring, stakeholder coordination, and strategic implementation. It serves as the central command center for all Yuva Saarthi operations within a district

The District Center coordinates with government departments, banks, financial institutions, Panchayati Raj institutions, CSR partners, and implementation agencies to ensure successful deployment and sustainability of the project

Key Functions

- District-Level Project Management
- Government Liaison & Coordination
- Bank & Financial Institution Coordination
- Monitoring & Evaluation
- Policy Implementation Support
- Data Analytics & Performance Tracking
- Investor & CSR Coordination
- District-Wide Training & Capacity Building

Coverage

- Entire District
- All Blocks
- All Panchayat Service Centers

www.yuvasaarthi.in

Yuva Saarthi Project District Service Associate (DSA) Orientation & Operational Framework

YUVA SAARTHI PROJECT DISTRICT SERVICE ASSOCIATE (DSA) ORIENTATION & OPERATIONAL FRAMEWORK

INTRODUCTION

The Yuva Saarthi Project is a community-driven development initiative designed to strengthen rural and urban communities through youth empowerment, entrepreneurship promotion, skill development, livelihood enhancement, and access to public welfare services.

District Service Associates (DSAs) serve as the primary field-level representatives of the project and are responsible for implementing project activities at the Gram Panchayat, Block, and District levels.

The success of the Yuva Saarthi Project depends upon effective grassroots engagement, accurate data collection, beneficiary facilitation, and timely reporting by DSAs.

The Yuva Saarthi District Resource & Command Center (YDRCC) functions as the district headquarters for planning, administration, monitoring, stakeholder coordination, and strategic implementation. It serves as the central command center for all Yuva Saarthi operations within a district

ROLE OF THE DISTRICT SERVICE ASSOCIATE (DSA)

- Conducting Gram Panchayat surveys and profiling.
- Identifying eligible beneficiaries.
- Facilitating access to government schemes and development services.
- Mobilizing youth, women, entrepreneurs, farmers, and self-help groups.
- Establishing and supporting Yuva Saarthi Panchayat Centers.
- Coordinating with local authorities, institutions, and stakeholders
- Maintaining records, documentation, and reporting systems.
- District-Wide Training & Capacity Building

www.yuvasaarthi.in

CORE WORK RESPONSIBILITIES

The DSA shall identify and facilitate eligible beneficiaries for various services under Yuva Saarthi.

Deliverables

- *Panchayat Survey Report*
- *Panchayat Development Profile*
- *Beneficiary Mapping Register*
- *Geo-tagged Photographs*
- *Meeting and Attendance Records*
-

Gram Panchayat Survey & Profiling ***The DSA shall:***

- *Conduct baseline surveys within assigned Gram Panchayats.*
- *Map youth, women, entrepreneurs, SHGs, institutions, and local resources*
- *Collect socio-economic and developmental data.*
- *Prepare Panchayat Development Profiles.*
- *Submit geo-tagged photographs and field reports.*

www.yuvasaarthi.in

Beneficiary Identification & Facilitation

Services may include:

- *Employment Assistance*
- *Skill Development*
- *Entrepreneurship Support*
- *Government Scheme Facilitation*
- *Financial Inclusion*
- *Training & Capacity Building*
- *Social Welfare Services*

The DSA shall support the establishment and development of Yuva Saarthi Panchayat Centers

A Beneficiary Shall Be Considered Successfully Facilitated When:

- Registration has been completed.
- Documents have been verified.
- Required services have been delivered.
- The beneficiary record has been uploaded in the MIS system.
- The application has been accepted or processed by the concerned authority wherever applicable.

www.yuvasaarthi.in

Yuva Saarthi Panchayat Center Development

The DSA shall support the establishment and development of Yuva Saarthi Panchayat Centers

- *Site identification.*
- *Community consultation.*
- *Infrastructure facilitation.*
- *Monitoring and reporting.*
- *Coordination with local stakeholders.*

REPORTING REQUIREMENTS **EACH DSA SHALL SUBMIT DAILY REPORTS**

- Panchayats visited
- Meetings conducted
- Beneficiaries identified
- Issues and observations

Weekly Reports

- Progress summary
- Beneficiary status updates
- Survey completion status
- Upcoming action plan

Monthly Reports

- Total Panchayats covered
- Total beneficiaries facilitated
- Project achievements
- Challenges and recommendations

www.yuvasaarthi.in

Gram Panchayat Infrastructure & Beneficiary Survey

As part of its implementation strategy, CBEIC is conducting a Gram Panchayat Infrastructure & Beneficiary Survey to understand the existing infrastructure, identify local needs, and create opportunities for sustainable rural development. The survey helps in planning projects, selecting beneficiaries, and preparing village-specific development plans.

This survey provides a strong foundation for implementing targeted, sustainable, and economically viable rural development initiatives.

The survey covers:

- **Infrastructure Mapping:** Assessment of Panchayat infrastructure, public assets, available land, and basic facilities.
- **Connectivity Assessment:** Evaluation of electricity supply, solar energy potential, road connectivity, and digital infrastructure.
- **Beneficiary Identification:** Identification of eligible rural youth, women entrepreneurs, Self Help Groups (SHGs), farmers, and local businesses who can benefit from various initiatives.
- **Demand Assessment:** Analysis of EV mobility requirements, digital service needs, and livelihood opportunities within the village.
- **Project Planning:** Creation of a village-wise database and preparation of Detailed Project Reports (DPRs) to support bank financing and convergence with Government schemes.
